The Manoranjan Mahapatra Collection of Swastika in Numismatics

The Sanskrit word *Siddham* or Success is represented as Swastika in ancient Indian symbology. It is composed of *Su*, meaning "good, well" and *asti* "being"; the suffix *-ka* either forms a diminutive or intensifies the verbal meaning, and *Suastika* might thus be translated literally as "that which is associated with well-being," Traditionally, being used before initiating any work, the Swastika traces its historical roots to the Indus Valley civilization which is more than 5000 years old. Mystically speaking it is even more ancient than that.

Tamra-patra (Copper-Plate) inscriptions as well as the palm leaf manuscripts of medieval India invariably begin with a Swastika. In the Indian culture, when a child starts his education, the priest draws a Swastika on a slate holding his hand. It is a sacred symbol in Buddhism, Jainism, Taoism and Confucianism, too. It is a common sight on temples or houses in India and Indonesia. Swastikas also have an ancient history in Europe, appearing on artifacts from pre-Christian European cultures and is called the Gammadion Cross.

The Swastika could either be right-facing (clockwise) or left-facing (anti-clockwise), the former being considered masculine and the later feminine, though no concrete reference is found in the Indian scriptures or Puranas for such a classification.

The Swastika appears in numismatics since the 2nd century BC, the most ancient being the archaic Punch-marked coin of the Magadha Janapada:

Since then, the Swastika has transcended the entire gamut of Indian numismatics including the Satavahanas, the Kunindas, the Sultanates, the Mughals, the Marathas, the Princely States and right up to the present day.

Not only in India and South Asia, the Swastika has appeared in European numismatics as well. Before the Nazi party formally adopted the Swastika or *Hakenkreuz* (hooked cross) as its symbol in 1920, it was the official symbol of the Finnish Air Force and was often worn by aviators as a good-luck charm.

The Mahapatra collection of "Swastika in Numismatics" straddles the entire spectrum of Indian Numismatics from ancient Kushan-Sassanian Kingdom, Ujjain and the Sungas to the present day. It also contains coins from Europe and other countries having Swastika on them.

It is a nice collection assembled over many years on this fascinating theme.

Happy Collecting...
